AGREEMENT

For 9-1-1 Emergency Communications, year 2000.

This agreement is made between the Public Safety Answering Point, hereafter referred to as "PSAP", and the Keyesport Fire Prot. Dist. for the purpose of effective handling and routing of 9-1-1 Emergency calls.

Call Handling

Bond County PSAP receiving a call for emergency services in your jurisdiction shall dispatch in the following manner: (radio frequency or phone number)

Radio Paging Via
Primary: V.H.F. 154.130 MHZ. Non-Emerg. Phone: 618-749-5591

Secondary: 618-749-5663 Mailing address: P.O. Box 251

Contact Person: Tom Hoffman Keyesport, IL. 62253

AID OUTSIDE JURISDICTION BOUNDARY

Once an emergency unit is dispatched in response to a request through the system, such unit shall render its service to the requesting party without regard to whether the unit is operating outside its normal jurisdictional boundaries.

The legislative intent is that 9-1-1 be used for emergency calls only. Therefore, all calls of an administrative or non-emergency nature shall be referred to your agency's published telephone number.

The PSAP Center agrees to keep all records, times, and places of all calls dispatched by 9-1-1. All records will be available to all participants of the 9-1-1- system.

It shall be the responsibility of your agency to maintain the report of call and the disposition of each call received.

All agreements, management, records, and service will be the responsibility of the EMERGENCY TELEPHONE SYSTEM BOARD.

Any agreements or changes in agreements and operating policies must be approved by the EMERGENCY TELEPHONE SYSTEM BOARD.

AID OUTSIDE JURISDICTION BOUNDARY

Once an emergency unit is dispatched in response to a request through the system, such unit shall render its service to the requesting party without regard to whether the unit is operating outside its normal jurisdictional boundaries.

The legislative intent is that 9-1-1 be used for emergency calls only. Therefore, all calls of an administrative or non-emergency nature shall be referred to your agency's published telephone number.

The PSAP Center agrees to keep all records, times, and places of all calls dispatched by 9-1-1. All records will be available to all participants of the 9-1-1 system.

It shall be the responsibility of your agency to maintain the report of call and the disposition of each call received.

All agreements, management, records, and service will be the responsibility of the EMERGENCY TELEPHONE SYSTEM BOARD,

Any agreements or changes in agreements and operating policies must be approved by the EMERGENCY TELEPHONE SYSTEM BOARD,

AGREEMENT

This Agreement is entered into this 18th day of May, 1999,
by and between Bond County, hereinafter referred to as "County" and the City of
Greenville, Illinois, hereinafter referred to as "City."

WHEREAS, County is in the process of establishing and implementing an
Emergency Telephone System for Bond County, Illinois, hereafter referred to as "911
System," and

WHEREAS, County and City deem it mutually advantageous to enter into an
Agreement respecting the providing of dispatching personnel and equipment and
services.

NOW THEREFORE, in consideration of the mutual covenants herein contained,
the County and City agree as follows:

1. City will provide space and personnel reasonably necessary to receive
"911 calls" at City's Public Safety Answering Point (hereinafter "P.S.A.P.").
Said personnel shall be employees of City and shall not be employees or agents
of County. All hiring, training, disciplining, termination and all other
employment related responsibilities and decisions shall be City's sole
responsibility. City agrees to indemnify fully and to hold County harmless from
any and all claims, demands, suits or causes of action in any way related to
hiring, employing or discharging personnel.

2. City shall adopt, promulgate and enforce reasonable and lawful procedures developed by County and recommended by County as necessary for successful operations of the emergency telephone system. Should the City deem any of the procedures developed to be unreasonable or otherwise objectionable, the City shall notify the County of the objection. The City and County shall then meet and resolve any differences prior to implementation of the procedures.

3. County shall provide equipment necessary to receive and process added volume of calls due to the implementation of the emergency telephone system. In addition, County shall supply any necessary uninterrupted power supply (UPS) units to support the P.S.A.P. equipment. County shall bear all training expenses for City personnel in the proper use and operation of the 911 system, including both initial training and any continuing training.

All equipment furnished by County to City for use at the P.S.A.P. shall be and remain the property of County. City agrees to keep and safeguard the equipment in a reasonable manner. Risk of loss of the equipment shall be with County and County shall be solely responsible to procure and maintain insurance upon the equipment. County shall be responsible for the cost of maintaining and servicing said equipment. Upon the initial delivery of equipment from the County to the City, the County shall provide an inventory of equipment items transferred to the City's custody. The City shall add additional

items of equipment supplied to the inventory and shall maintain an updated list of all equipment provided by the County for 911 System use.

4. The City agrees to provide physical security of the P.S.A.P., 911 equipment and personnel in full compliance with all state and federal rules, regulations and statutes. The City further agrees to maintain database security and confidentiality of all records generated, kept or maintained as a part of the 911 system operation in full compliance with all state and federal rules, regulations and statutes. The County shall reimburse the City for any costs related to upgrades and security necessitated by the operation of the 911 System and not required by the City's other operations.

5. City agrees to add County as an additional insured under its comprehensive liability insurance and any umbrella liability coverage or under any self-insured or municipal self-insured pool, as appropriate. The County shall reimburse the City for any actual costs incurred in adding the County as an additional insured to its comprehensive liability insurance policy.

6. In the event a state of emergency is declared to exist within the County area by authorized federal, state or local authorities, and such emergency reasonably requires additional dispatch personnel to handle County-only calls, County shall reimburse City the cost of such additional dispatch personnel for a period not to exceed 24 hours, and the County designee may extend the period for which the City shall receive reimbursement. Each extension shall be no longer than 24 hours. The total emergency reimbursement period shall not exceed 120 hours without approval of the Bond County Emergency Telephone

System Board, pursuant to 50 ILCS 750/15.4. Reimbursement shall be at the same rate of pay and according to the same work rules established by City.

7. City shall submit to County, on a monthly basis, data on the operation of the system including such information and data as are reasonably required by County and in accordance with state and federal requirements/guidelines.

8. County, via its relationship to the Bond County Emergency Telephone System Board, and pursuant to 50 ILCS 750/15.4, shall be responsible for providing to City telecommunications equipment and installation costs, personnel training costs, necessary supplies, and computer hardware and software necessary to comply with state regulations for enhanced 911 emergency communications. County shall be responsible for reimbursement/payment of City expenses for changes to the City's equipment room and telecommunication room necessary to provide enhanced 911 services, including remodeling costs, removal of old equipment, reconfiguration of present equipment and any other necessary expense. The City shall be responsible for equipment maintenance, replacements and upgrades of its own telecommunications equipment. Costs for the purchase of new additional equipment shall be equitably shared when such equipment is necessary for both 911 services and basic City telecommunications. (Any additional insurance expense to the City, as a result of the County portion of the equipment, will be the responsibility of the County.)

9. This Agreement shall remain in force unless terminated as provided herein. Either party may terminate this Agreement by giving 120 days advance written notice. In the event of a notice of termination, the parties hereto shall prepare a written plan, mutually agreed to for the removal of equipment owned by County, and if applicable, the transfer of personnel without the disruption of telecommunications services.

10. Nothing herein contained shall be construed to create a partnership or joint venture between the parties and neither party shall be the agent of the other.

11. This Agreement shall be governed by and regulated by the laws of the State of Illinois.

This agreement is made between the Public Safety Answering Point, hereafter referred to as "PSAP", and the Clinton County E.T.S.B. for the purpose of effective handling and routing of 9-1-1 Emergency calls.

The Clinton County P.S.A.P. located within the Carlyle, Illinois Sheriff's Department will serve as a "back up" P.S.A.P. to the Bond Co., Greenville, Illinois Primary P.S.A.P. As such, it shall receive Bond Co.s, emergency 911 calls during emergency conditions that would prevent the Bond Co. P.S.A.P. from functioning. Also, it shall dispatch such calls over VHF and UHF radio facilities and fixed transfer facilities, the cost for which is to be provided for and maintained by the Bond County E.T.S.B. and, which are required over and above those facilities normally provided by the Clinton Co. E.T.S.B. to meet their own needs at the Carlyle PSAP. Call handling and other pertinent details shall be covered by separate documents as required.

This agreement may be cancelled with a sixty day written notice by either party to the other. All added facilities paid for by the Bond County E.T.S.B. shall remain those of Bond County.

AID OUTSIDE JURISDICTION BOUNDARY

Once an emergency unit is dispatched in response to a request through the system, such unit shall render its service to the requesting party without regard to whether the unit is operating outside its normal jurisdictional boundaries.

The legislative intent is that 9-1-1 be used for emergency calls only. Therefore, all calls of an administrative or non-emergency nature shall be referred to your agency's published telephone number.

The PSAP Center agrees to keep all records, times, and places of all calls dispatched by 9-1-1. All records will be available to all participants of the 9-1-1 system.

It shall be the responsibility of your agency to maintain the report of call and the disposition of each call received.

All agreements, management, records, and service will be the responsibility of the EMERGENCY TELEPHONE SYSTEM BOARD.

Any agreements or changes in agreements and operating policies must be approved by the EMERGENCY TELEPHONE SYSTEM BOARD.
